DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: According to C.F.R. § 1.74 (Reference to drawings), when there are drawings, there shall be a brief description of the several views of the drawings and the detailed description of the invention shall refer to the different views by specifying the numbers of the figures and to the different parts by use of reference letters or numerals (preferably the latter).

Drawings 3-8 refer to several different parts (e.g., 3A, 3B, etc.); however, the detailed description of the invention does not refer to the different parts of each drawing by use of reference letters or numerals. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 84 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 84 is dependent on a cancelled claim. Thus, the scope of this claim cannot be determined.
